CARE INSTRUCTIONS

Cleaning

Wipe with a clean, dry cloth. Use a soft cloth, tightly wrung in lukewarm water containing a tiny bit of all-purpose cleaning agent. Always choose a mild cleaning agent without abrasive qualities. Be careful not to use too much water, and preferably, use only a damp cloth. Remember to always finish off by wiping the surfaces with a dry cloth.

Please Note:

- **You must never use abrasive detergents, wire wool or polish, but only the gentlest and mildest cleaning agents available.**
- **Lacquered wooden surfaces can endure neither humidity nor alcohol. Always wipe off any spilt liquids immediately.**
- **Never disinfect lacquered wooden surfaces using ethanol as alcohol based disinfecting cleaning agents may damage the surface. Only use water containing a mild all-purpose cleaning agent, which has proven just as effective.**
